

WSP DELIVERS A COMPREHENSIVE PROJECT MANAGEMENT SERVICE VIA THE CLIENT ADVISORY TEAM OF WSP MANAGEMENT SOLUTIONS. WE ARE ALSO ABLE TO CALL ON THE DESIGN, ENGINEERING AND MANAGEMENT CONSULTANCY SPECIALISTS WITHIN THE GLOBAL WSP GROUP.

As Project Managers we have successfully undertaken a variety of projects for both private and public sector clients, some of which include:

Crowne Plaza, Kensington

Overall management of the complete refurbishment and rebranding of this existing 130 bedroom, central London hotel from a Holiday Inn to a four and a half star Crowne Plaza.

Tesco CHP Trial

Management of the design, procurement and installation of Combined Heat and Power (CHP) units into 12 Tesco stores. This was on a fast track programme as part of the supermarket's drive to reduce carbon emissions and fuel costs.

HMP Guys Marsh, New Energy Centre

Project co-ordination for the delivery of new, highly sustainable, Energy Centre utilising renewable energy.

Office Fit Out, StatoilHydro

Single source management, design and delivery of the fit-out of three floors of the Norwegian oil and gas company's new London office.

Large urban regeneration project, Qatar

Project Manager and lead QA/QC role for WSP's 13 separate appointed disciplines in support of a completely new Aeronautical City due for completion by 2042.

UK Supreme Court

Project Management on the external security and hard landscaping project for the new UK Supreme Court.

WSP Group plc is a global design, engineering and management consultancy, specialising in projects for the property, transport and environment sectors.

WSP Management Solutions
Project Management

We have a very strong track record in both new build and refurbishment projects across all market sectors embracing work for major blue chip and public sector clients globally.

WSP is a member of the Association for Project Management (APM) and all of our project managers are MAPM qualified.

Our team has extensive experience in the delivery of best practice Project Management across a diverse range of project sectors.

OUR APPROACH

With a focus on relationships and people, our approach to every project is essentially very simple: we take responsibility for its success. We pride ourselves on our reputation for delivering independent, innovative Project Management solutions.

To us, Project Management means working in partnership with our clients from the outset to assess project viability, address risks, and establish clear objectives and the right strategy to achieve them. Once a comprehensive brief has been agreed, we provide all the human and technical resources required to carry it through to a successful conclusion. Our priority is that not only are the client's primary objectives met and the project delivered to programme and budget, but that right from the start such criteria as value, quality, exceeding user expectations and risk are reviewed and developed on an ongoing basis.

Our integrated expertise, coupled with our breadth of resource and support facilities, enables WSP to deliver Project Management Consultancy services at both strategic and implementation levels for private and public sector clients.

EXPECTING THE UNEXPECTED

By maintaining a focus on client needs and drawing on our understanding of the design, procurement and construction process, we are able to anticipate the needs of the project and identify potential obstacles in advance, taking action to mitigate them and keep the project on track.

Our in-house expertise in risk and programme scheduling allows us to test project credibility at all stages which means we can address any risks and maximise the opportunities. WSP's dedicated Project Management team will:

- Lead and inspire the project team
- Organise the resources to deliver
- Define and agree the scope
- Identify key client objectives
- Develop the project plan
- Select the design team
- Manage and deliver the implementation phase
- Handover the finished project
- Undertake a post-project review
